

Missions of Mercy

I understand there is potential risk for exposure to blood borne pathogens (BBPs) including human immunodeficiency virus (HIV), hepatitis B virus (HBV), and hepatitis C virus (HCV), as well as other bacteria, protozoa, viruses and prions during the performance of my volunteer service at this MOM project. I understand that I am personally responsible for any medical fees and services associated with a percutaneous piercing wound typically set by a needle point, but possibly by other sharp instruments or objects.
